

Lifting stati. Aqualift F XL 300l Mono, SPF 1500-S3, Cast-iron gate valve

Article information

Item no.: 11033

GTIN: 4026092057001

Price group: 50

Advantages

- Different performance classes available
- Pressure sensor for reliable pneumatic level measurement
- Maximum operating reliability due to intelligent control unit (Duo)

Description

The lifting station for faecal and faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) offers universal connection options and has a screwed access cover.

The station is controlled by a user-friendly control unit, which can be optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface (Comfort control unit). Tuna of weather

Type of wastewater.	wastewater with sewaye
Installation situation:	free-standing set-up

Installation situation:	free-standing set-up
Version:	
Type of system: Shut-off valve:	Single station Shut-off valve made of cast iron
General characteristics:	
Colour: Standard:	black EN 12050-1

Tank:

Distance from centre of outlet pipe to tank 609 mm

bottom:

Tank volume: 300 l
Pressure pipe connection: vertical

Pumping device:

Pump: SPF 1500

Number of pumps: 1

Operating mode: S3 - 50 %

Impeller type: Multi-vane impeller

Length of mains cable for pump: 5 m

Control:
