

Lifting stati. Aqualift F XL 200l Duo, SPF 1400-S1, Cast-iron gate valve

Article information

Item no.: 11088

GTIN: 4026092057551

wastewater with sewage

Price group: 50

Advantages

- Different performance classes available
- Pressure sensor for reliable pneumatic level measurement
- Maximum operating reliability due to intelligent control unit (Duo)

Description

The lifting station for faecal and faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) offers universal connection options and has a screwed access cover.

The station is controlled by a user-friendly control unit, which can be optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface (Comfort control unit). Type of wastewater:

Installation situation:	free-standing set-up
Version:	
Type of system: Shut-off valve:	Twin pump station Shut-off valve made of cast iron
General characteristics:	
Colour: Standard:	black EN 12050-1
Tank:	

Tank volume:

200 l

Pressure pipe connection: vertical

Pumping device:

Pump: SPF 1400

Number of pumps: 2
Operating mode: S1

Impeller type: Multi-vane impeller

Length of mains cable for pump: 5 m

Control:

Control unit:

Operating voltage:
