

Lifting stati. Aqualift F XL 300l Duo, SPF 1400-S1, Backflow preventer

Article information

Item no.: 11092

GTIN: 4026092057599

Price group: 50

Advantages

- Different performance classes available
- Pressure sensor for reliable pneumatic level measurement
- Maximum operating reliability due to intelligent control unit (Duo)

Description

The lifting station for faecal and faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) offers universal connection options and has a screwed access cover.

The station is controlled by a user-friendly control unit, which can be optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface (Comfort control unit).

Type of wastewater:	wastewater with sewage	
nstallation situation:	free-standing set-up

Type of system: Twin pump station

General characteristics:

Colour: black Standard: EN 12050-1

Tank:

Tank volume: 300 l
Pressure pipe connection: vertical

Pumping device:

Pump: SPF 1400

Number of pumps: 2
Operating mode: S1

Impeller type: Multi-vane impeller

Length of mains cable for pump: 5 m

Control:

Control unit: Comfort
Operating voltage: 230 V
Mains frequency: 50 Hz
Type of level measurement: pneumatic
Level measurement instrument: Immersion pipe
