

Backwater valve Staufix Basic

Article information

Item no.: 76100
GTIN: 4026092011300
Price group: 10

Advantages

- Simple conversion possible using conversion kits
- Fast and toolless maintenance and cleaning
- Ideal for modernisation: can also be installed in existing pipes later

Description

The backwater valve for rainwater is equipped with a mechanical flap which closes automatically in the event of backwater.

Thanks to the modular KESSEL system, existing systems can easily be supplemented by a second backwater flap or an emergency closure.

Type of wastewater:	Rainwater
Installation situation:	exposed drainage pipe
Delivery state:	installation-ready
Backwater protection:	Type 0
Number of mechanical backwater flaps:	1

General characteristics:

Outer diameter (OD):	100
Standard:	EN 13564

Dimensions:

Length:	355 mm
Width:	155 mm
Height:	170 mm

Vertical drop between inlet and outlet:	9 mm
Cover locking:	screwed
