

Backwater valve StaufixControl DN 90, exposed, Type 2 R

Article information

Item no.: 770090R GTIN: 4026092076620

Price group: 10

Advantages

- optical and acoustic warning message if backwater occurs
- Wireless backwater signal (EnOcean) can be integrated in the control system
- Flexible installation, various covers available for floor slab installation

Description

The backwater valve for wastewater without sewage is equipped with two mechanical flaps which close automatically in the event of backwater. One flap serves at the same time as an emergency closure to be closed by hand.

The battery-operated warning unit in the lockable cover generates an optical and acoustic warning if backwater occurs. Optionally, the warning message can control a remote signal generator in the living area via the EnOcean protocol or automatically disconnect a switched socket from the mains.

Type of wastewater: wastewater without sewage Installation situation: exposed drainage pipe

Version:

Stainless steel flap as rat protection: yes Emergency closure: yes

Delivery state: installation-ready

Backwater protection: Type 2 Number of mechanical backwater flaps: 2

General characteristics:	
Nominal size (DN): Outer diameter (OD): Colour: Standard:	90 90 black EN 13564
Dimensions:	
Length:	385 mm
Width: Height:	167 mm 230 mm
Coverage features:	
Type of cover:	Lockable cover
Vertical drop between inlet and outlet:	8 mm
Control:	
Type of level measurement: Level measurement instrument:	pneumatic Pressure switch
Levet measurement mstrument.	FIESSUIE SWILCII

Cover locking:

One-handed closure
