

Pumping station Aquapump XL Tronic, GTK 1300-S1

Article information

Item no.: 8743026 GTIN: 4026092075807 Price group: 60

Advantages

- Maximum safety
- Flexible installation
- Also handles large quantities of faecal-free wastewater

Description

The pumping station for faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an open pump tank with universal connection options. Quickrelease closures enable the integrated components to be removed easily.

The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system via a potential-free contact. Alternatively, alarm and collective fault messages can be output via a GSM interface.

The KESSEL modular system provides different engineering chamber options as accessories for the further layout.

Stainless steel pump removal chains available as accessory for each installation depth - Article number:

680528 = Length 2 m 680529 = Length 3 m 680530 = Length 4 m 680531 = Length 5 m Type of wastewater: Installation situation:

wastewater without sewage underground installation, floor slab installation

Version:

Type of system: Installation: Shut-off valve: Pump control: Backflow preventer: Access steps: Note on installation depth: Passage seal for ventilation pipe (DN): Passage seal for conduit pipe (DN):

Delivery state:

Single station Wet installation Shut-off valve made of polymer Control unit integrated yes in combination with a chamber module 100 mm 100 mm

Pre-mounted for final assembly on site (pumps and sensor system must be fitted on site and control unit must be connected)

General characteristics:

Colour:	black
Standard:	EN 12050-2

Dimensions:

Length:	1,370 mm
Width:	1,240 mm
Height:	1,416 mm

Tank:

Number of inlets: Inlet nominal size (DN): Inlet nominal size (OD): Inlet max. scoring (DN): Distance pipe bottom inlet to tank bottom: Distance from centre of outlet pipe to tank bottom:	1 ST 150 160 mm 150 mm 1,054 mm 1,134 mm
Distance from centre of inlet pipe to tank bottom:	1,134 mm
Pumping volume: Pressure pipe connection: Pressure pipe connection (DN): Pressure pipe connection (OD): Groundwater resistant from lower edge of base section:	350 l horizontal 80 mm 90 mm 3,000 mm
Clear width of tank (LW):	1,000 mm
